

...and its Official!

After over 22 successful years in the industrial pump industry, Managing Director, Mr Clifford Topper along with his management team decided in 2017 that it was time for AquaPump to evolve towards an all-encompassing trademark. A trademark that embraces all characteristics of our superior pump brands and ranges. As a result, Liquid Movers was born.

We embarked on our transition from AquaPump to Liquid Movers following all necessary corporate and legal procedures, first of which was, notifying all our customers, suppliers and other interested and relevant parties that as of August 2017 AquaPump will be **trading as** Liquid Movers.

Now, over a year later it gives us great pleasure to announce that as of February 2019 AquaPump has fallen away and **WE ARE OFFICALLY Liquid Movers.**

How Does This Change Affect You?

NOT AT ALL!

This name transition was solely from a brand identity and marketing perspective. All our company details, such as VAT number, company registration number etc. still remain the same.

In addition, we promise the same, if not better level of customer service, attention to detail and solution driven advice from our internationally trained pump specialists.

With world leading industrial pump brands like ARO, Blackmer and Flowserve coupled with our new corporate identity and award winning age-old customer centric approach we are officially Liquid Movers – The Pump Specialists, bringing you international pumps at local prices!
